Community Taxel Aug 1, 2022

It’s August and we have a new Ambassador of the Month and Community Champion – KnightlySpartan! He’s the founder of two excellent fan-led communities: r/XboxIndia and the Xbox India Discord, a Level 4 Ambassador, and he’s passionate about creating safe and welcoming spaces centered around gaming. Read the Q&A to learn more about him and be sure to say hi and congrats when you see him around.

How did gaming become one of your passions?

My gaming journey started in the 90s with arcades and a Famiclone (Game Boy). It was around mid 2000s when we got our first PC, that was when I played my first 3D games and I was hooked. I would spend hours roaming around the city in Midtown Madness or reading about games in magazines like Skoar! and Digit.

What’s your favorite video game or franchise, and why?

Well, if my gamertag didn’t gave it away, it’s Halo. I had heard about it from my brother, a game where we play as a Robo-man and we fight Aliens that have 4 jaws. When I got my hands on it was everything I had imagined and more. First time we land on the ring and see it curving toward the sky, surrounded by waterfalls, it was mesmerizing, and I was blinded by its majesty.

How long have you been an Xbox Ambassador for, and how did you first hear about the program?

I joined the Xbox Ambassador program back in December 2019, I learned about it on the web, possibly from the Xbox Wire site.

Do you have a favorite Xbox Ambassadors memory that you'd like to share?

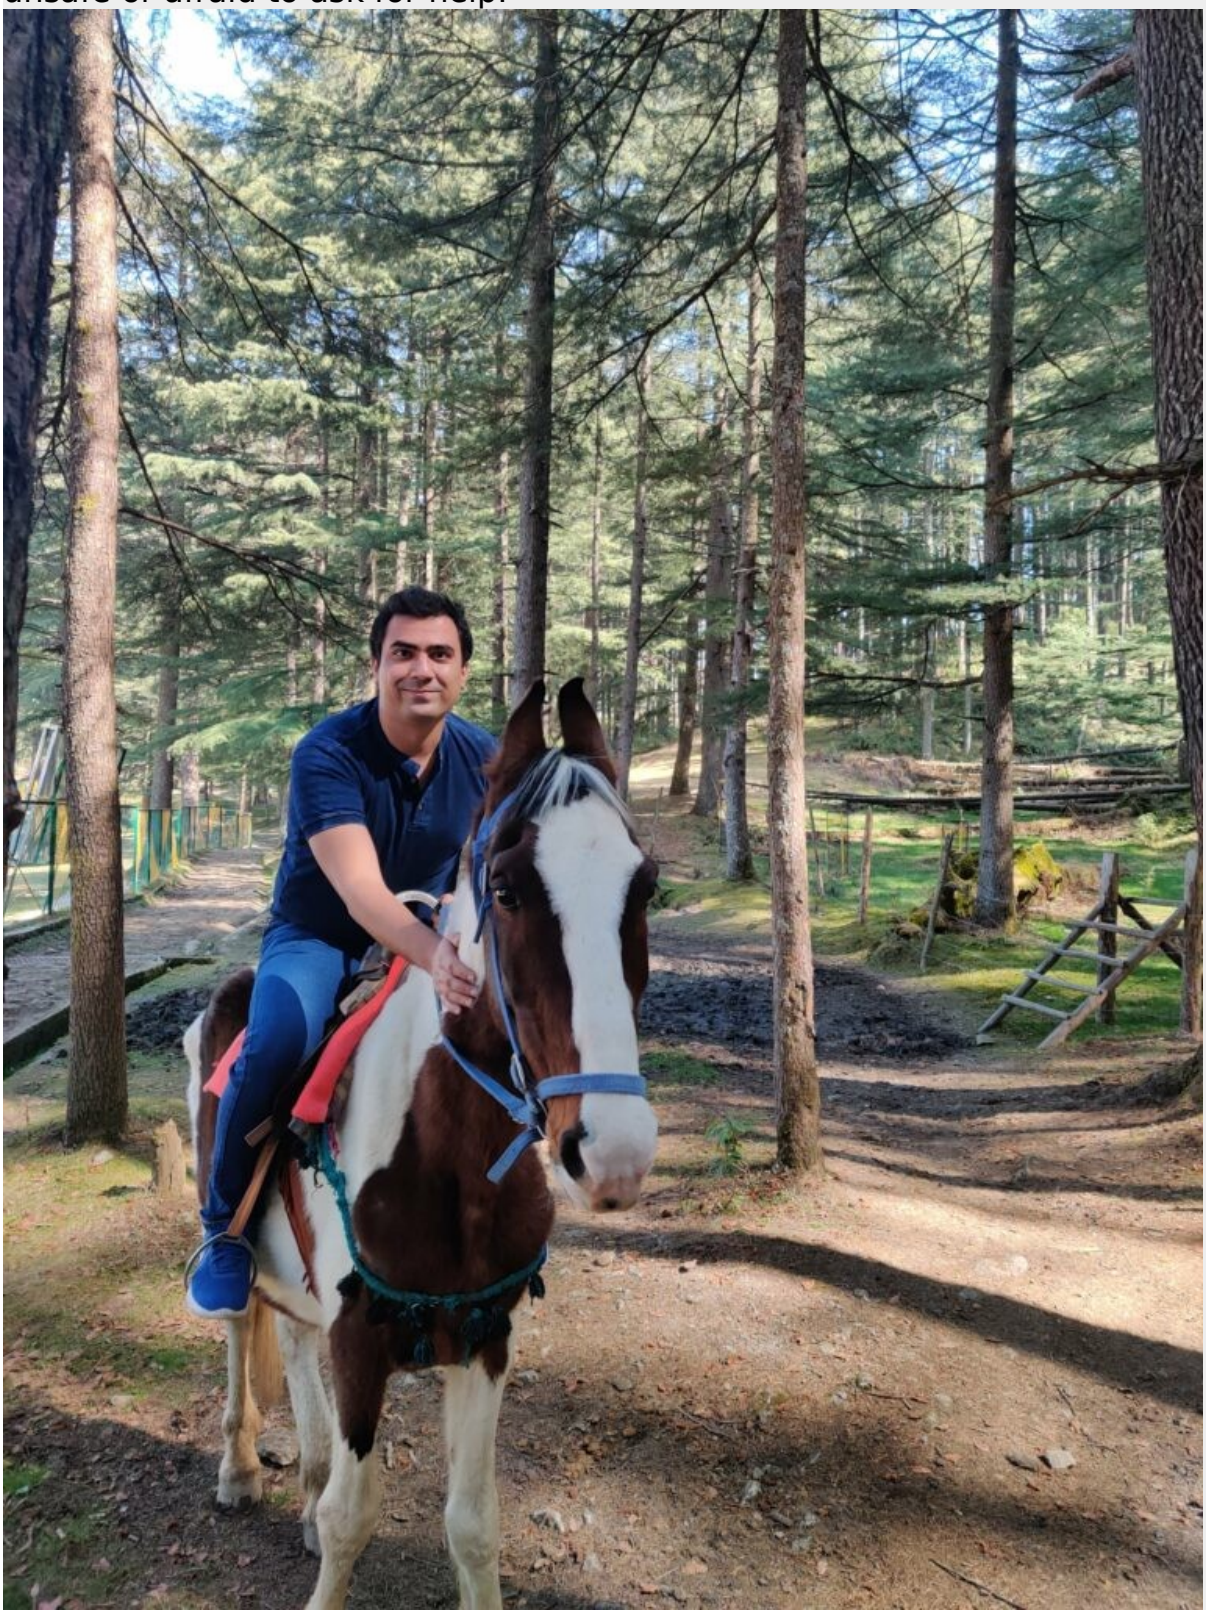
My favorite Xbox Ambassadors memory is from when we organized our first community event in Halo MCC. We had crazy fun playing Speed/Avalanche, Jump Rope and the like. People kept joining in, nobody wanted to stop, and we played for 5-6 hours straight.

For you, what's the most important line of the Xbox Ambassador Pledge and why?

The important line from XA Pledge would be "promoting a safe environment that everyone can enjoy". Before joining the program, I used to play a lot of GTA Online and The Division. It was hard to find players to help you out, especially for my friends who weren't fluent in English. That was when I started the Xbox India community on Reddit and Discord.

What does a healthy community mean to you?

A healthy community for me is where everyone is welcomed. No one feels unsafe or afraid to ask for help.



How do you think online communities positively impact the lives of gamers?

Online communities expand the horizon and helps breakdown the borders for gamers. It brings people together separated by vast distances.

What do you like to do outside of gaming?

I like traveling and watching movies with my wife.

As Ambassador of the Month, what message do you have for other members of the Xbox Ambassadors community?

For the members of Xbox Ambassadors community, I would say, don’t be afraid of trying something new, you never what you’re gonna like. Meet new people and try to help all those you can.
